

# FOUNDRY

## Cloud Computing Study 2023

Insight into organizations' cloud strategy plans,  
business drivers, and investments.

# Purpose and methodology

## Survey goal

To measure cloud computing trends among technology decision-makers including usage and plans across multiple cloud services, investments, business drivers and shifting services and applications to the cloud.

Total respondents **893**

## Collection method

Online questionnaire

Number of questions **29**

Average company size **13,061 employees**

## Region

North America **44%**

APAC **40%**

EMEA **15%**

## IT leadership

All survey respondents are involved in the purchase process for cloud computing and their organization has, or plans to have, at least one application, or a portion of their infrastructure, in the cloud.

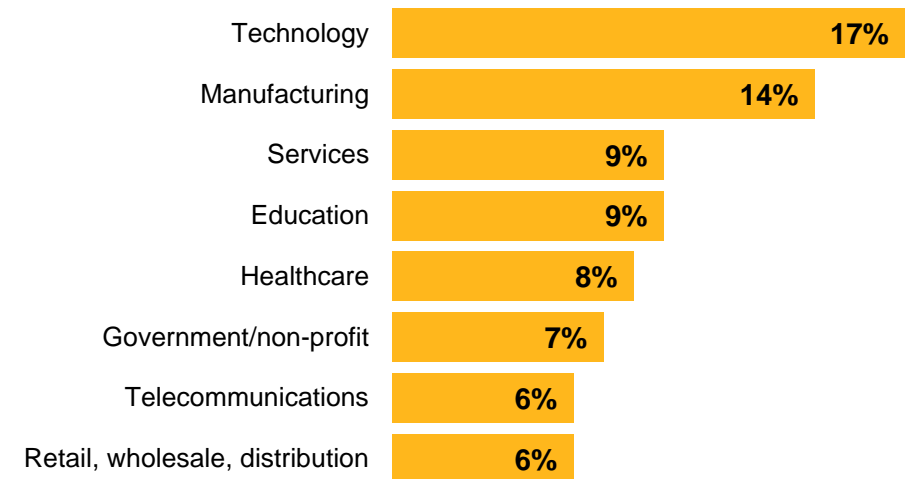

## Audience base

CIO, Computerworld, CSO, InfoWorld and Network World email invitations to audience base.

## Job titles

## Top represented industries

# Majority of IT environments in the cloud

**Question:** Which statement below best describes your organization's total IT environment (infrastructure, applications, data analytics, etc.) today? 18 months from now?

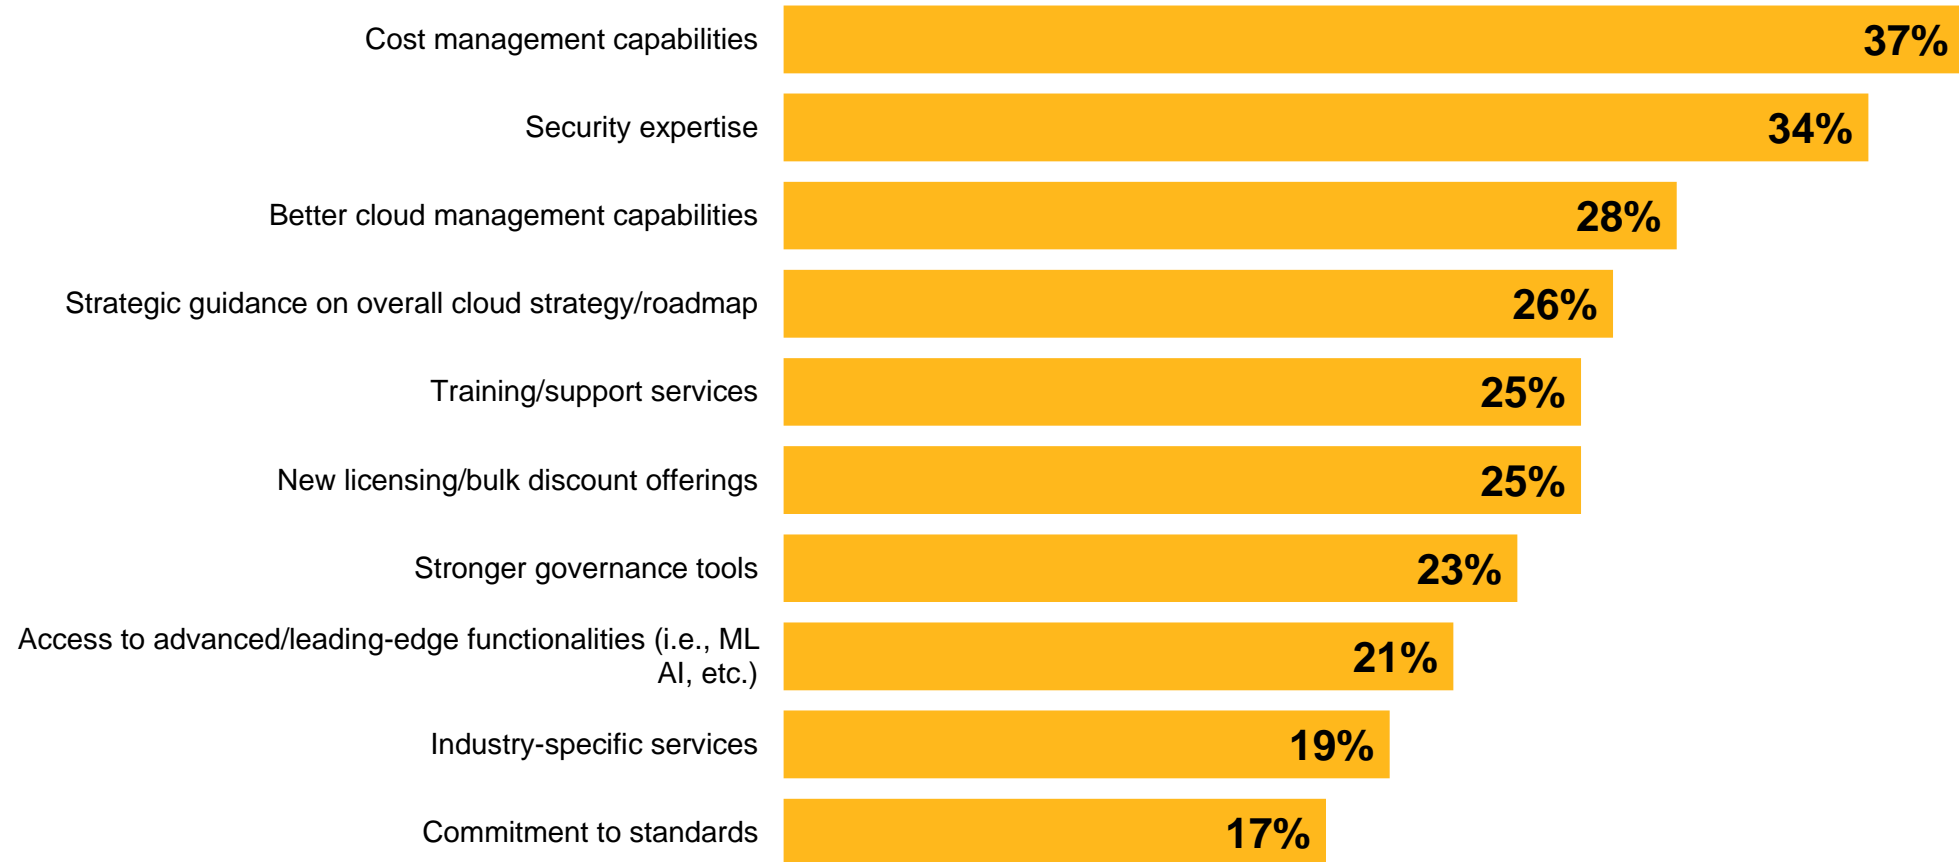

# What's driving cloud computing initiatives?

1. Enabling disaster recovery & business continuity
2. Replacing on-premise legacy technology
3. Lower total cost of ownership (TCO)
4. Improving employee productivity
5. Greater flexibility to react to changing market conditions

**Question:** What business objectives are driving cloud investments at your organization? (Please select up to five)

# Cost management and security expertise needed from vendors

**Question:** In order to successfully advance your cloud strategy over the next year, what do you most need from your future or current cloud providers?

# Spending decisions are controlled by IT

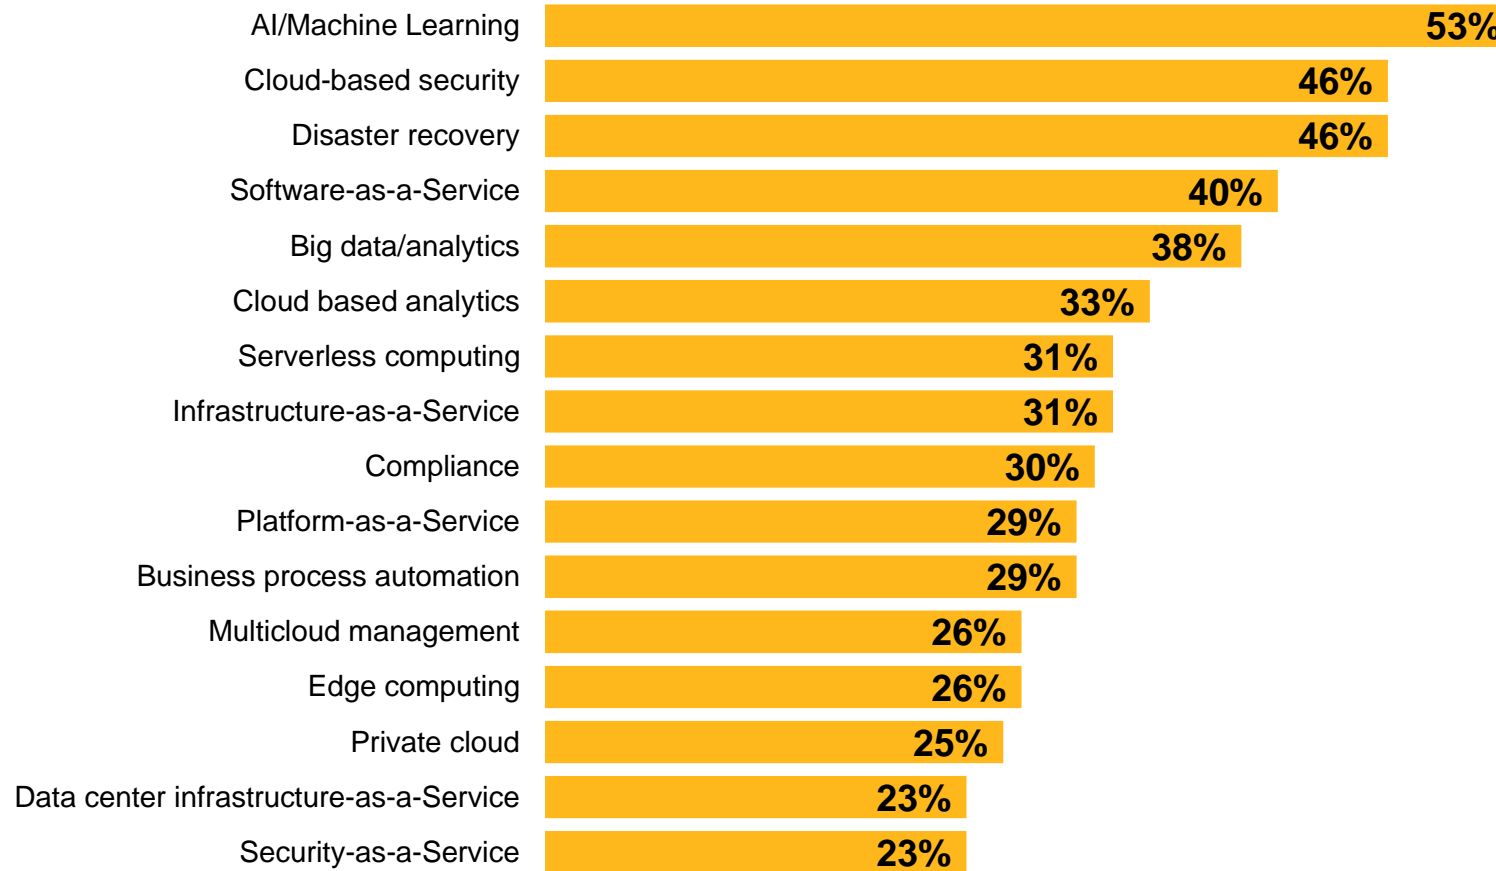

**Question:** Approximately, what percent of cloud spending decisions at your organization are primarily controlled by IT, and what percent are primarily controlled by other lines of business?

# Multicloud architecture intentions

**Question:** What are your organizations intentions for leveraging a multicloud architecture over the next 12 months?

# Cloud capabilities most likely to adopt

# 44%

of IT decision-makers understand their cloud provider's roadmap for integrating AI tools in their platforms.

1,000+ **53%**  

---

**<1,000 37%**

**Question:** Of the following cloud capabilities, please select all that you are most likely to use or adopt over the next 12 months?
